APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the place of use of water granted under permit No. 4381, is issued in accordance with the terms of said permit No. 4381 and with the understanding that no prior rights will be affected by the proposed change. Reference to the final decree, in the case of Pacific Livestock Co. vs. T. B. Rickey, et al shows that applicant herein has been allowed 1.07 cubic feet of water per second for 67 acres of land within the SW $\frac{1}{4}$ NE $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$ and SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 22, T. 8 N. R. 27 E. Inasmuch as this permit is granted to change the place of use of water from the land described in application and permit No. 4381 to portions of the land above described, the statutory allowance of .93 cubic feet of water per second is allowed herein for the remaining 93 acres of land which has not been allowed a water right in the final decree in the above mentioned suit. The applicant will be required to file with the proof of beneficial use of water, a cultural map showing the location of the 67 acres allowed a water right under the above mentioned decree and the location of land irrigated under this permit. A substantial headgate and weir must be installed and maintained at or near the point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water herein granted at any and all times. It is distinctly understood that applicant agrees to the terms herein contained.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed .93 cubic feet per second.

Actual construction work shall begin on or before July 4, 1922.

Proof of commencement of work shall be filed before August 4, 1922.

Work must be prosecuted with reasonable diligence and be completed before August 4, 1924.

Proof of completion of work shall be filed before September 4, 1924.

Application of water to beneficial use shall be made on or before October 4, 1926. Proof of the application of water to beneficial use must be filed with State Engineer on or before November 4, 1926.

WITNESS MY HAND AND SEAL this 4th day
of February, 1922.

Proof of ~~work~~ filed Jun 27

Proof of completion of work filed APR 8 1942
